

INSTALLATION / SYSTEM CONSTRUCTION

WORKING EFFICIENTLY AND SAFELY

Whether it is in the area of sanitation, heating, and air-conditioning or a large system builder, you are an expert in building services and power engineering and contribute considerably to the energy efficiency of your building and the well-being of its tenants. In this very versatile area of activities, clever concepts that are easy and safe to install and operate are what count. TROX offers system solutions from a single source for new construction and refurbishment, for every building type and every building size.

TROX NET

In the TROX NET online customer centre, our registered customers are given information on:

- Status quo orders (e.g. processing status, expected date of dispatch, etc.)
- Price lists
- Delivery times
- Data standard
- Selection programmes (PC-versions)

FAST. RELIABLE. INNOVATIVE.
